

MEETINGS

Meetings (Optional)

AFML offers clients optional face to face meetings before to engage.

Meetings allow questions and answers on both sides.

Clients can ask questions and fully understand how AFML operates and how it can assist in the funding process.

A meeting also demonstrates intent on the potential borrower.

It allows AFML to assess a particular project in much greater detail thus obtaining the borrowers priorities to be targeted and increases the funding success rate.

Clients should consider that when seeking large sums of monies, a meeting with your service provider is a necessary part of the diligence process and is money well spent.

For complex borrowings or more than 1 project seeking funding it is highly recommended that a 2day meeting be requested.
